

HAIKA NGOWI

Senior Data Analyst | Business Intelligence & AI Analyst
Email: hnngowi@gmail.com | Phone: +1 (917) 318-3591 | LinkedIn: [HNgowi](#) | Portfolio: [Haikangowi](#)

PROFESSIONAL SUMMARY

Senior Data Analyst with 7+ years of experience driving data-informed operational and financial strategy through advanced SQL, forecasting models, and executive dashboard design. Proven ability to partner with cross-functional leadership to shape KPI frameworks, support planning cycles, and translate complex datasets into actionable business decisions across enterprise environments.

EDUCATION

CHARLTON COLLEGE OF BUSINESS, University of Massachusetts at Dartmouth

Master of Business Administration, Business Analytics

SAINT AUGUSTINE UNIVERSITY OF TANZANIA - Mwanza, Tanzania

Bachelor of Business Administration, Procurement and Supply Chain Management

TECHNICAL SKILLS

Programming & Data: SQL (SQL Server), Python, R
Data Visualization: Power BI, Tableau, MS SQL Report Builder
Analytics & Reporting: KPI Development, Dashboard Design, Data Validation, Report Automation
Business Systems: Requirements Gathering, Functional Specifications, UAT Support, Process Mapping
Tools: Jira, Atlassian Suite, Relational Databases, Advanced Query Tool (AQT), Advanced Excel
AI & Automation: Microsoft Copilot Studio, Agents, Notebooks; Generative AI Workflow Automation.

WORK EXPERIENCE

NVR Inc. - Frederick, MD **August 2022 – Present.**
Data Analyst (Procurement & Operations Analytics)

- Architected SQL-based reporting frameworks and executive Power BI dashboards tracking operational KPIs (spend, OTIF, backlog, forecast alignment), driving a 10% improvement in delivery performance and enabling leadership visibility into multi-million-dollar procurement operations.
- Led forecasting and variance analysis to support quarterly planning cycles, aligning supplier performance metrics with operational capacity and budget projections.
- Partnered with cross-functional stakeholders to perform root-cause analysis and translate operational questions into structured SQL queries and analytical outputs supporting multi-million-dollar operational and budget decisions.
- Designed and implemented automated reporting pipelines that standardized recurring analysis and reduced manual reporting effort across teams, improving reporting cadence and decision turnaround time.
- Established data validation controls and standardized KPI definitions to strengthen reporting governance and ensure cross-system consistency.
- Directed analytical coordination during supplier and part transitions, leveraging structured reporting and risk tracking to achieve a 90% reduction in operational downtime.
- Built scalable self-service dashboards and delivered stakeholder training sessions to increase transparency and promote data-driven decision-making across departments.

- Optimized large dataset analysis to identify operational trends, performance gaps, and process improvement opportunities across procurement and supplier operations.
- Designed and deployed 2 Microsoft Copilot agents to automate knowledge retrieval and streamline business workflows while leveraging Generative AI and prompt engineering to improve information discovery and user productivity.

Ameriprise Financial - Minneapolis, MN
Business Analyst (Contract)

January 2019 – December 2021.

- Led requirement gathering sessions and documented functional specifications during a large-scale vendor consolidation initiative, improving departmental efficiency by 18%.
- Developed process flows, use case documentation, and requirement traceability matrices to support system implementation.
- Supported UAT cycles by validating outputs against documented requirements and coordinating stakeholder feedback prior to release.
- Collaborated with business and IT teams to ensure system changes aligned with operational and reporting needs.

University of Massachusetts Dartmouth - Dartmouth, MA
Graduate Assistant – Charlton College of Business

September 2017 – August 2018.

- Increased the e-Portfolio completion rate for graduate students by organizing workshops and one-on-one meetings with graduates and stakeholders, in collaboration with the Graduate Senate and MBA Association.
- Developed an e-Portfolio software and training manual with a faculty member; troubleshooted user issues, conducted content analysis, and established evaluation standards for faculty.
- Represented the Decision and Information Sciences Department at campus-wide workshops and seminars, providing introductory statements and contributing to Q&A sessions.

Treasurer – MBA Association

- Collaborated with leadership and faculty to achieve income and expense targets.
- Conducted periodic budgeting and cash flow projections by analyzing collection reports and outstanding balances.
- Reconciled monthly statements, invoices, and expense accounts; ensured accurate financial records and documentation.

PricewaterhouseCoopers Limited - Dar es Salaam, Tanzania
Senior Associate

August 2013 – January 2017.

- Managed a portfolio of 30+ clients, delivering data-driven tax consulting while ensuring compliance across financial services, oil & gas, and mining sectors.
- Analyzed financial statements and underlying datasets in collaboration with audit teams and senior stakeholders, identifying trends, discrepancies, and reporting risks.
- Led end-to-end tax compliance processes (VAT, payroll, withholding), improving data accuracy and streamlining reporting workflows.
- Conducted due diligence and developed transfer pricing documentation, combining financial analysis with business context to support investment decisions.
- Translated complex financial and regulatory data into clear, actionable insights, contributing to strategic planning and risk management discussions.
